USCCA "BASIC HANDGUN / PISTOL SKILL BUILDER"

Course Details

Personalized training. Practical skills. Greater confidence.

The Pistol Skill Builder is designed for shooters who want to move beyond the basics and develop greater confidence and competence with their handgun. Rather than following a one-size-fits-all curriculum, each session is **tailored to your individual experience, ability, and training goals**.

Whether you're a new permit holder looking to become more comfortable handling and operating your firearm, or an experienced shooter wanting to improve specific skills, we'll identify where you are, determine where you want to go, and build the training around you.

Training may include firearm handling and safety, grip, stance, sight alignment, trigger control, loading and unloading, malfunction clearing, accuracy, defensive shooting fundamentals, drawing from a holster, and other skills appropriate to your experience level.

You don't need to fit the course. The course is built to fit you.

Upon completion, participants receive a printed certificate signed by their instructor to keep on file as evidence of ongoing training.

- This 4-hour course consists of 2 segments: classroom instruction and live fire at a shooting range. (*includes time for breaks)
